

# Hanne Verschueren

## About Me

---

At KdG I studied audio-video and soon found out I really wanted to focus on audio. I loved my Internship as an audio assistant for multicamera productions, but was also very interested in IoT and decided to study that after I graduated. Currently I'm in my last year at Thomas More. Luckily I'm able to combine school with a job as a freelance audio assistant. That way I can enjoy my two passions.

## School

---

Elektronica - ICT  
specification - IoT / digital innovation  
Sep. 2020 – now
